### NEW BUSINESS:

This special meeting was to review and the Memorandum of Understandings (MOUs) between the Chapter and District for the work occurring for Hartnell's Study Hall, PE conditioning and conseling appointments. President Cortez reviewed why this was needed (because the current Article on Safety doesn't cover these new working conditions, so we had a 'right to bargain') and explained the actions that had been taken to ensure member safety. President Cortez reviewed the "Return to Work" document and discuss his personal experience working at the site, even providing pictures. This new agreement has extra protections and requires the district to comply with the California Health Department Protection guidelines.

This provided membership to asked questions and express concerns. These included the process of checking with the country to make sure that indeed Hartnell is complying with local safety requirements, making sure that there was an exposure plan in place and that they service were actually being utilized and required these extra measures.

President Cortez stated that he was still investigating what "deep cleaning" meant with Dean Ceja and that there are still ventilation and roll out of student services area concerns. He reported that he would reach out to Patti about a few of the issues that were raised and communicate with the members when he had information.

There were several concerns about how the new state at home order might impact these services as well, but President Cortez stated that he didn't know and would ask the district for answers as well

There will be a vote on this item at the meeting on December 4<sup>th</sup>, 2020
